

CÃ²pies de seguretat al nÃºvol

Description

He instal·lat i configurat UpdraftPlus al meu WordPress per realitzar cÃ²pies de seguretat. He configurat les cÃ²pies automÃ tiques setmanals i he connectat Google Drive com a sistema d'emmagatzematge al nÃºvol. Finalment, he realitzat una cÃ²pia manual i he comprovat que els fitxers s'han guardat correctament a Google Drive.

Footer Tagline

He fet captures de pantalla de la instal·lació, la configuració de Google Drive, la programació de les còpies i el resultat final de la còpia de seguretat.
